*In this digital era, technology has developed rapidly. Technology development does not only bring positive impacts but also negative impacts. Therefore, it is necessary to have clear and firm rules to regulate the use of technolog, so that the negative impact can be minimized and the benefits can be maximized. One of the negative impacts of technological development is addiction. This addiction does not arise because of the gadget, but the applications in the gadget, such as entertainment application (Instagram, Tiktok, etc), games / video games, and the worst among others is online gambling. Indonesia is currently facing na online gambling crisis. The impact is not only on individual finances buat also on the social and economic structure of society. This research focusess on the punishment for online gambling offenders studies from the verdict number 2039/Pid. B/2021/PN. TNG and verdict number 2040/Pid. B/2021/PN. TNG. The study of the verdicts uses the theory of justice to ensure that the punishment that has been given by the judge not only to punish the defendants but also to prevent the next prepetrator. Online gambling is are regulated by Criminal Code Article 303 and Article 303 bis section (1), Law Number 11 of 2016 concerning electronic information and transaction. The research methodology employed is qualitative, utilizing a normative approach with secondary data obtained by literature study.*
