THE INFLUENCE OF SOCIAL MEDIA ON THE RECOGNITION OF BUSINESS OPPORTUNITIES AMONG E-COMMERCE WITH CONSIDERATION OF THE ROLE OF ENTREPRENEURIAL ALERTNESS AND SOCIAL NETWORKS IN JABODETABEK

(xv + 102 pages; 22 tables; 7 figures; 2 appendices)

This research aims to determine the influence of social media, entrepreneurial alertness, and social networks on the recognition of business opportunities among e-commerce in Jabodetabek. Data were collected through the distribution of online surveys in the form of Google Forms, and the researchers used a quantitative approach to process the data. The research subjects are entrepreneurs who sell their products on e-commerce platforms. The collected data were analyzed using the SEM PLS analysis method, with the help of the SmartPLS version 4 software, to answer the research hypothesis. The research findings reveal that social media, entrepreneurial alertness, and social networks are related to the recognition of business opportunities among e-commerce in Jabodetabek. In addition, it was also found that entrepreneurial alertness and social networks mediate the influence of social media on the recognition of business opportunities among e-commerce in Jabodetabek. The researchers hope that this study can deepen the understanding of the role of factors that significantly influence the recognition of business opportunities, especially among e-commerce in Jabodetabek, and can expand knowledge and references for future research contributions.
