**THE EFFECT OF USING SHOPEE PAYLATER AND LIFESTYLE ON
STUDENT'S CONSUMPTIVE BEHAVIOR AND IMPULSIVE BUYING
(STUDY ON BUSINESS MANAGEMENT STUDENTS AT PELITA
HARAPAN UNIVERSITY, MEDAN)**

(xiii+78 pages; 8 figures; 29 tables; 8 appendixes)

This study has an objective to determine the effect of Shopee Paylater (X1), lifestyle (X2) on consumption behavior (Y1), impulse buying (Y2) in students (study on business management students at Pelita Harapan University Medan). The population of this research is business management students at Pelita Harapan University who live in Medan and have used the Shopee Paylater service. A total of 100 respondents were opted by leveraging purposive sampling method in non probability sampling. This study leverages a quantitative descriptive method, data collection is conducted by spreading online questionnaires via Google Form to respondents with certain criteria and then analyzed using the SPSS 30 program.

The output of this study indicates that Shopee Paylater and lifestyle have a partial influence on consumption behavior, Shopee Paylater and lifestyle have a simultaneous influence on consumption behavior, Sopee Paylater and lifestyle have a partial impact on impulse purchases, while Shopee Paylater and lifestyle have a partial impact on impulse purchases. The adjusted R square result of 0.334, shows that Shopee Paylater and lifestyle have an influence of 33.4% on consumption behavior. The adjusted R square result of 0.397, shows that Shopee Paylater and lifestyle have an influence of 39.7% on impulse purchases. Meanwhile, the remaining 66.6% and 60.3% are influenced by other variables that have the potential to influence consumption behavior and impulse buying.
